### Adoption of the Minutes

**87.01.03** The adoption of the minutes was duly moved, seconded and unanimously approved.

### Business Arising from the Minutes

**87.01.04** Following a review of the document on the proposed organization of the Department of Fitness, Recreation and Athletics and upon the recommendation of the Budget and Priorities Committee, it was duly moved, seconded and approved with one recorded abstention that the proposed structure be accepted and put in place by the Vice-Rector, Services.

### Budget and Priorities Committee Report

**87.01.05** Dr. Giguère noted that there would be no legislation on the budget at this meeting. The document would be reviewed and discussed. The budget would then be ratified at the February 13, 1987 CCSL meeting for presentation to the Board of Governors meeting in March.

- 87.01.06** Speaking privileges were granted to several student members of the IEAC who were very concerned about the possibility of the elimination by CCSL of funding for their student clubs. Following a lengthy discussion, it was decided that IEAC should meet with CUSA to negotiate funding. Since the IEAC currently appears under the Dean of Students budget, it was agreed that Mr. Brian Counihan would sit in on the negotiations.
- 87.01.07** Ms. Ann Kerby questioned if the \$54,000 item under renovations for the Fitness and Recreation and Athletics Department should be a capital budget item. Dr. Giguère explained that over the years, various facilities have had little or no maintenance due to budgetary restraints and have now actually degenerated to a point where some areas are actually dangerous and are being looked into by the Occupational Health and Safety Office. By allowing this amount in the operating budget, the facilities could then be routinely maintained.
- 87.01.08** Mr. Brian Counihan noted that there has been no increase in student services fees since 1982.
- 87.01.09** Lengthy discussions followed concerning the various cost cutting measures proposed and the corresponding student fee increased. Mr. Peter Shea noted that the differences in the student fee increase per credit for the various budget options proposed were minimal and perhaps the time and effort being expended were disproportionate.
- 87.01.10** Mr. Bob Philip, Chairman of the Athletic Advisory Council submitted a list of their budget recommendations (copy attached).
